MEMORANDUM FOR: Fred Demich  
FROM: Allen Lenz *AL*  
SUBJECT: Request for Transmission of Additional CIA Documents to Field Offices

The Working Panel tasked with the independent review of Soviet Economic Problems and Prospects recently submitted a series of written questions to the CIA, suggesting that responses could be made to individual questions by citing appropriate references to existing CIA reports.

The Agency chose to respond by this method, providing the attached list of references corresponding to the question format.

The Working Panel has reviewed the document citations and wishes to obtain selected items to supplement, where required, those publications previously furnished to them.

Attached is a copy of the reference list provided by the CIA, marked up to indicate the documents requested and the locations to which they are to be sent.

Should distribution of some of these documents be delayed by special requirements, I suggest the remainder be transmitted as soon as they are available so that Panel member reading can proceed as rapidly as possible.

In addition, please provide to the San Francisco Field Office all 12 of the documents on the attached "List of Publications to be forwarded to Panel Members" for the use of John Moore, a Panel member added subsequent to the original distribution of these documents.
